SUMMARY

Aspiring Software Engineer with a strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and Computer Science fundamentals. Proficient in Java and C++, with hands-on experience building full-stack and backend applications using Spring Boot, React.js, Node.js, and relational databases. Experienced in developing RESTful APIs, implementing authentication, and deploying web applications. Strong problem-solving skills with a focus on writing clean, maintainable, and efficient software.

TECHNICAL SKILLS

Programming: Java, C++, C, SQL
Frontend: HTML5, CSS3, JavaScript, React.js
Backend: Java, Spring Boot, Node.js, Express.js, REST APIs
Database: MySQL, PostgreSQL, MongoDB
Security & Tools: Spring Security, JWT, Git, GitHub
Platforms: AWS, Linux, VS Code, Render, Vercel

EXPERIENCE

AR/VR Campus Navigation Intern – Parul University

Nov 2025 – Present

Vadodara, Gujarat | Onsite

- Built and deployed a responsive campus navigation web application using HTML, CSS, JavaScript, and JSON.
- Implemented interactive navigation interfaces using structured JSON data to dynamically manage campus information and user interactions.
- Managed the project using Git/GitHub and deployed it on Vercel, ensuring responsive and cross-browser compatibility.

PROJECTS

Job Application & Recruitment Management System

[Live Demo](#) | [GitHub](#)

Java, Spring Boot, Spring Security, JWT, Spring Data JPA, PostgreSQL, REST APIs, Swagger

- Developed a role-based recruitment management system using Java and Spring Boot, enabling candidates to search and apply for jobs and recruiters to manage job postings and applications.
- Implemented JWT authentication and role-based authorization with Spring Security for Candidate, Recruiter, and Admin access.
- Designed 6 JPA entities with relational mappings for users, companies, jobs, and applications.
- Built and documented RESTful APIs with input validation and centralized exception handling for authentication, job management, and application workflows.

AI-Lead Automation Software

[Live Demo](#) | [GitHub](#)

React.js, Node.js, Express.js, MySQL, OpenAI API

- Architected a full-stack lead-management platform with secure authentication and RESTful API design.
- Implemented efficient database schemas in MySQL for scalable lead tracking and user management.
- Optimized frontend rendering and backend data processing for a responsive, production-oriented application.

E-Commerce & Order Management System

[Live Demo](#) | [GitHub](#)

React.js, Java, Spring Boot, Spring Security, JWT, Spring Data JPA, PostgreSQL, REST APIs

- Developed a full-stack e-commerce platform enabling users to browse products, manage shopping carts, and place and track orders.
- Implemented JWT-based authentication and role-based authorization for Customer and Admin users using Spring Security.
- Built RESTful APIs for product management, cart operations, order processing, and user management using Spring Boot, with JPA/Hibernate-based relational schemas, validation, and centralized exception handling.

EDUCATION

Parul University, Vadodara, India

2023 – 2027

Bachelor of Technology – Computer Science & Engineering (Artificial Intelligence)

CERTIFICATIONS

- NPTEL** – Computer Networks and Internet Protocol, Elite Certification — 2025
- AWS** – AWS Cloud Technical Essentials, Coursera — 2025
- IBM** – Introduction to Web Development with HTML, CSS, JavaScript, Coursera — 2025

CODING PROFILE

LeetCode: 323 Problems Solved | Contest Rating: **1,822** | **Top 7.41%** | C++, Java, MySQL
